

## Ring Size Chart

Cut a strip of paper several inches long, similar in width to the ring you are ordering. Wrap the strip of paper around your finger. Mark the place where the paper meets. With a ruler, measure the distance between the mark you have made and the beginning edge of the paper. Refer to the chart below:

Length	$2\text{-}1/8''$	$2\text{-}1/4''$	$2\text{-}3/8''$	$2\text{-}1/2''$
Ring size	5	6	7	8

Length	$2\text{-}11/16''$	$2\text{-}13/16''$	$2\text{-}15/16''$	$3\text{-}3/16''$
Ring size	9	10	11	12

\*Always order up in size if the measurement falls between two sizes.
